

ENDORSEMENT

To Whomsoever It May Concern,

It is with great pleasure that I, **Cyrus Pithawalla**, Former Director of the **Hiranandani Group's Real Estate Core Team**, place on record this endorsement to commend the exceptional quality and performance of **German MULTIFOAM Construction PU Foam**, supplied by **Milestone (India) Corp, Mumbai**.

Our association with MULTIFOAM began in the year **2001**, when, as one of India's leading construction groups, we were in search of innovative and dependable materials for our projects. Being extremely meticulous about the products we adopt, we chose not to rely solely on conventional test certificates or laboratory reports. Instead, we evaluated MULTIFOAM through practical, on-site application to ensure it met our rigorous field performance standards.

The first deployment of MULTIFOAM was at the **Oyster Building and three PWD buildings in Thane** for window insulation applications. The results exceeded our expectations. The product demonstrated remarkable strength, durability, consistency, and ease of application. Based on these results, its usage was extended to several prestigious projects across **Thane, Powai, and Chennai**.

Across all these projects, MULTIFOAM has consistently delivered superior and reliable performance, contributing to improved insulation quality and overall structural integrity. Its dependable performance has helped us maintain the high construction standards for which the **Hiranandani Group** is known.

I would also like to acknowledge the professional support extended by the MULTIFOAM team, particularly **Mr. Bharat Mehta**, whose commitment to quality and customer satisfaction aligns closely with our values.

In conclusion, I strongly recommend **MULTIFOAM Construction PU Foam** for projects that demand top-tier quality, long-term reliability, and proven on-site performance. MULTIFOAM has been a pivotal component in our projects, and I wish the team continued success.

Warm regards,

Cyrus Pithawalla

Former Director – Real Estate Core Team

Hiranandani Group

President – The Poonawala Group
